Subject: Re: Getting started with [REDACTED]!

Hello [REDACTED]

Thank you for sending that info. Is there a trial price? I've used some platforms before that just didn't work so it's hard to justify a \$5000 annual bill for a product that I haven't tried.

Thanks,

Hi [REDACTED]

Thanks so much for getting back to me! Yes, our platform integrates with Twitter.

I wanted to send along our [demo videos](#) so you can see how helpful our platform will be for what you're working on. I've also attached a capabilities deck to this email.

You can view and sign up for our basic subscription [here](#) after creating a free account or logging in to your existing account. For easier reference, our pricing is as follows:

- **Basic subscription:** \$5,000 paid annually which includes unlimited access to searching in the database, alerts, media lists, coverage reports, coverage comparisons, and 200 pitch emails per month. You also have access to email exports with contact info and media list imports.

If you have any questions after taking a look feel free to connect with me or, check out our [FAQs](#), which will help you understand our journalist database, media monitoring and reporting capabilities more.

Thanks!

Thank you,
